The Stuart/Martin County Chamber of Commerce has identified 266 firms. As can be expected, new firms, consolidations, layoffs and new hires necessitate the stipulation that we have presented as accurate a picture as possible. However, before relying on an individual listing, a personal verification is suggested.

The Chamber will make any addition, deletion, or correction upon receipt of a request on company letterhead.

* Please note that due to different reporting requirements, total number of firms and total number of employees may not correlate.

The 2009 Martin County Manufacturing Firms is a publication of the Stuart/Martin County Chamber of Commerce. It is not for distribution or duplication from any other source.
